

Peranakan 8

Colour: Natural Tone France

Peranakan 8 is developed to provide the security and easy-laying inherent to a contemporary model of tile, yet preserving the traditional V-concept.

Its innovative features of 8 V tiles in 1 (4 overs and 4 unders), reduces number of joints and cut down installation time.

With its marvelous range of weathered tones, it gives a tropical resort charm.

Unique and Exquisite Design

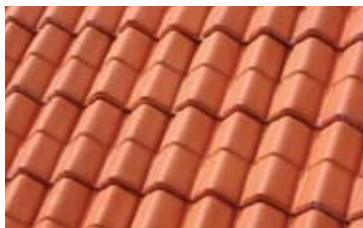

Comes with interlocking system, the P-8 is waterproof and easy to lay. It is the improved version of the traditional V-tiles to eliminate the hassle of using costly metal decking and prevent tiles from sliding down.

8 V tiles in 1

With its 8 in 1 appearance and range of weathered tones, the P8 tile provides a contemporary concept yet retaining its traditional beauty.

*Note: Colour variation is an inherent characteristic of all kiln fired clay products. Colour shown on catalogue may vary from the actual product.

TECHNICAL SPECIFICATIONS

Dimension (mm)	Weight (kg)	Length Batten Gauge (mm)	Effective width (mm)	Tiles per m ² (pcs)	Weight Per m ² (kg)	Minimum Pitch
330 X 350	3.9	273 ± 2	288	13	51	25°

*Depending on location and wind speed

*Note: Underlay is recommended for better protection in tropical country

FEATURES

13 tiles per m²
No metal decking

Considerably lesser overlap

Interlocking DIDO system

Unique profile

ADVANTAGES

Lower material cost versus existing 110 tiles per m²
Lower installation and labour cost - fewer tiles to lay

Cut down construction time

Reduced dead loads resulting in smaller structural members required

Good ventilation under one roof prevents timber moisturing and eventual rotting

Lower material cost

Reduce number of joints

Completely waterproof

Proper drainage

Prevents tiles from sliding down

Resistant to wind uplift

Easy future maintenance
